# United States of Europe

- \* Understand cultures + traditions from all countries in Europe
- \* All different cultures + traditions in all we are all united together
- \* Have an internet site where all countries can come together and help make their weaknesses strengths
- \* Exchange programmes - during school terms so youth can get to know about education systems in different countries
- \* The title European gives you self-confidence + self-importance
- \* One system for school targets so that all countries will be to study anywhere in Europe with the same targets.
